Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Preliminary Amendment

Applicant's preliminary amendment has been entered.

Information Disclosure Statement

The information referred to in Applicant's information disclosure statement has been considered.

Drawings

The drawings are objected to because the exploded views of Figures 6A and 9B have not been bracketed, as is required when a figure representing an exploded view appears on the same drawing sheet as another figure. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each

drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The specification is objected to since line 2 on page 7 references the plate with character "9" although "9" appears to be a hole.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 3, 7, 13 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 recites the limitation "the maximum peak-to-peak gap" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Regarding claim 3, the phrase "similar to" renders the claim indefinite because the claim include(s) elements not actually disclosed (those encompassed by "or similar to"), thereby rendering the scope of the claim(s) unascertainable.

Claim 7 recites the limitation "the rotational axis of the bearing" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 13 recites the limitation "the maximum peak-to-peak gap" in lines 1 to 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 14 recites the limitation "the rotational axis of the bearing" in lines 1 to 2. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

Claims 2, 3, 7, 13 and 14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 1, 4-6, and 8-12 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Johnson et al (4781416) shows a seatback recliner having an internal gear and an external gear.
